

SAMIUL KARIM MAZUMDER

Station Road, Dhaka | **Phone:** (+880)1952336111

Email: samikarim191139@gmail.com | **Profiles:** [LinkedIn](#), [Portfolio](#), [GitHub](#)

EDUCATION

Bachelor's in Computer Science and Engineering – (Expected CGPA 3.65)

International University of Business Agriculture & Technology, Dhaka, Bangladesh

Expected 2026

Higher School Certificate – GPA 5.00

Uttara High School and College, Dhaka, Bangladesh

2020

Secondary School Certificate – GPA 5.00

Uttara High School and College, Dhaka, Bangladesh

2018

EXPERIENCE

Android Studio-Flutter Developer (Trainee)

EDGE Project, Bangladesh Computer Council (ICT Division), Dhaka

2024 - 2025

- Accomplished foundational Android application development training by completing hands-on mobile development exercises using Flutter and Android Studio in a nationally funded ICT program.
- Improved understanding of mobile UI/UX workflows and application architecture by building structured prototype applications and participating in guided development sessions.
- Strengthened software development lifecycle knowledge by working on real-world app development scenarios involving deployment concepts and debugging practices.
- Enhanced collaborative development skills by contributing to peer-based technical exercises under mentor supervision in a structured training environment.

Student Intern

Nobel Learning PBC, Dhaka

2024

- Improved course usability and learner experience by redesigning WordPress-based educational content layouts and navigation structures.
- Enhanced cross-team collaboration efficiency by coordinating with international teams on platform improvements and content delivery workflows.
- Developed practical web design and CMS management skills by building and customizing educational web pages using WordPress.

Course Designer (Intern)

Nobel Learning PBC, Dhaka

2024

- Designed an introductory Machine Learning course curriculum for beginner learners by applying user-centric instructional design principles and accessibility-focused content planning.
- Improved learner engagement and course accessibility by proposing interactive and beginner-friendly learning structures during collaborative design sessions.
- Strengthened content refinement and delivery strategy by collaborating with cross-functional teams on curriculum updates and presentation planning.
- Contributed to project communication and alignment by presenting ideas, updates, and design improvements during team discussions and review meetings.

Translator

GGG, Gazipur

2021 - 2023

- Worked as an English to Bangla Interpreter.
- Helped communicate between various Chinese Business owners and local distributors.
- Prepared documents and verbal translations for meetings and presentations, enhancing cross-cultural understanding.

LEADERSHIP EXPERIENCE

Mentor

International University of Business Agriculture and Technology, Dhaka

2023 - 2025

- Improved junior students' understanding of programming fundamentals by mentoring them in C++, OOP, Data Structures, and Algorithms through structured learning sessions.
- Enhanced student problem-solving abilities by guiding learners through coding practices, algorithmic thinking, and assignment preparation strategies.
- Increased collaborative learning participation by organizing peer study groups and academic support sessions focused on technical subjects.
- Strengthened individualized student performance by providing one-on-one mentorship on technical concepts, exam preparation, and learning methodologies.

Organizer

AnimeCon 2023, Dhaka

2023 - 2024

- Co-organized a large-scale convention, managing Sales of more than 15 stalls.
- Collaborated with a team of 25 volunteers to ensure smooth event execution and attendee satisfaction.

Mentor

International University of Business Agriculture and Technology, Dhaka

2023 – 2025

- Supported and guided fellow students in various courses, helping them navigate academic and personal challenges.
- Organized study groups and peer tutoring sessions, fostering a collaborative learning environment.
- Provided one-on-one mentorship, offering advice on coursework, career planning, and personal development.

RESEARCH EXPERIENCE

Student Researcher

MIRA Wing, CCDS, Dhaka

2024 - Present

- Developed deep learning solutions for medical image analysis by designing and implementing AI architectures using Python-based frameworks.
- Improved research collaboration efficiency by building and maintaining centralized repositories for shared development and experimentation workflows.
- Enhanced medical image preprocessing pipelines by implementing image processing techniques using OpenCV and PIL.
- Contributed to experimental research strategies by collaborating with multidisciplinary research teams on model design and evaluation processes.

HONORS AND AWARDS

Runner-up at Learnathon 3.0 (Unity, C#)

2025

- Led the development of a 2D action-platformer by designing a dual-path gameplay system where player decisions influenced NPC states, progression routes, and multiple endings.
- Engineered a modular combat framework to support melee, ranged, and special abilities through cooldown-driven gameplay mechanics and reusable combat components.
- Designed multi-phase boss encounters and progression-based difficulty scaling to improve gameplay pacing, challenge balancing, and player engagement.
- Developed real-time HUD systems to display player health, energy, upgrades, and NPC state tracking using custom UI components and event-driven updates.
- Created layered level architectures with hidden zones, unlockable mechanics, and interactive environmental systems to encourage exploration and replayability.
- Coordinated team-based development workflows by utilizing structured design documentation, collaborative planning, and version control practices.

PUBLICATIONS

Samiul Karim Mazumder, Riyadul Islam, Siam Tahsin Bhuiyan, Rashedur Rahman, Sefatul Wasi, Ashraful Islam, and Saadia Binte Alam. Detection-Guided Lumbar Spine Degeneration Classification Using Multi-Slice Encoded MRI. International Conference on Machine Learning and Cybernetics 2025. [10.1109/ICMLC66258.2025.11280017](https://doi.org/10.1109/ICMLC66258.2025.11280017).

TECHNICAL SKILLS

Programming languages: C, C++, C#, Python

Game Development: Unity, Game Systems Design, UI/HUD Development

Development Frameworks: Django, ASP .NET, Flutter

Image processing frameworks: OpenCV

Machine learning frameworks: Tensorflow, Pytorch

Web technologies: HTML, CSS, JavaScript (Basic), PHP

Database & Backend: MySQL, SQLite

Tools: Git, GitHub, VS Code

OS: Linux (Ubuntu), Windows OS

COMMUNICATION SKILLS

Bangla (Native)

English (Advanced)
